TO : Commander, WRSP-IV

FROM: Squadron Surgeon

SUBJ: Activity Report for May 63

1. Squadron health remained good during the reporting period. Medical cases of particular interest are:

a. [ ] was operated upon at the local base hospital on [ ] and is continuing to make an uneventful recovery.

b. [ ] met a Physical Evaluation Board at Travis AFB, Calif. and was found medically disqualified for general military service. Final administrative action for his separation from the Air Force is pending.

2. Medical support of operation [ ] was uneventful, as the deployed personnel incurred no significant disabilities or illnesses. [ ] stay at the staging site was cut short by his requirement to return to home base for the above cited operation. During his absence medical support was provided by a civilian physician, [ ] who is on permanently stationed elsewhere in the region, and who was made available through Hqtrs channels. He reportedly provided enthusiastic as well as capable support. [ ] was favorably impressed with the few changes that had been instituted to improve the general health and sanitation for the compound area. Physical and installation requirements for construction of both a permanent medical and personal equipment room within the compound area were discussed with the civil engineer, who was then TDY to the staging area.

3. [ ] reported in on 8 May 63, after about four months orientation and TDY experience with other Hqtrs. projects and activities. He will replace [ ] who leaves 8 June 63. During the overlap period he has been initiated to the working processes of the PE and Medical sections and of the squadron.

4. Physiological training for LAC and other personnel, which was scheduled for April was completely cancelled due to the personnel requirements of operation [ ]. Affirmative response was received from LAC. This training will be accomplished when possible.

5. Annual physical examinations at Lovelace Clinic were accomplished on [ ] but reports have not been received here. [ ] are scheduled in June.

6. Administration section was given the responsibility for the administration of immunizations and records.

[ ]  
Captain, USAF, MC, FS
